Dear Premier

I refer to your Statement to Parliament on 5th August where you outlined a policy that individuals on the Governments Lobby Register would not be able to hold Government positions.

As I am on the Government Lobbyist Register, and also hold Government appointed positions as Chairman of the Gold Coast Events Company, and Chairman of the Cyclone Larry Appeal (this is an unpaid position which should be completed within the next six months), I wish to inform you that I have decided to terminate the last two contracts I have with clients, effective 31st August 2009.

However I would also like to advise that it is not my intention to make any further contact with any public servant or Member of Parliament in relation to these clients.

When I receive a letter from your Director General, as you stated in the Parliament, I will inform him of this. I also will contact the register of political lobbyists to ask that my name be removed from the register effective 31st August 2009.

Kind Regards

Terry Mackenroth

What about these lines?

"The Minister discussed all matters in relation to the event with the Premier today on her return from her trade mission.
The Premier indicated this morning Mr Mackenroth said he would be resigning upon the completion of the event.
At no time has the Minister lied to the media."

Subject: Revised final response

Statement by Sport Minister Phil Reeves:

The Premier was accurate in her comments at a media conference today that I have made myself available to speak to the media this morning.

I made myself available on two occasions today – first speaking to Channel 10 at the opening of an electorate event in Mt Gravatt, and then taking questions from media on my way into Cabinet this morning.

But I am happy to again clarify:

Late Friday Terry Mackenroth indicated to me his determination to resign.

As a result of that discussion I met with the Premier on Monday on her return from her trade mission. She then spoke personally to Terry Mackenroth and accepted his resignation.

It was appropriate this issue be discussed with the Premier on her return and that's what I did.

Right now all I'm focused on is making this week's event the best possible.

The focus of everyone should be on making this event the best we can and ensuring we put on a good show for the fans.

Over the past few days I have been extremely busy working with various stakeholders including V8 Supercars to pull this event together and make it a success.

It's terrific such an impressive event has been put together so quickly and it's a credit to everyone involved.
